

Petlife vetbed® GOLD

Vetbed is impregnated with Ultra-Fresh® fibre, which is an anti-microbial treatment used in many household, consumer and industrial products. Ultra Fresh® is built into the product at the time of manufacture and lasts for the useful life of the product.

- ♥ Provides control and inhibition and protection from: bacteria, fungi, moulds and mildew.
- ♥ Prevents odours, rotting, degradation, spoilage and staining of products that could otherwise arise from the growth of these organisms
- ♥ Helps prevent musty odours and stainage from fungi, mould and mildew
- ♥ Helps prevent product breakdown and degradation from fungal attack
- ♥ Helps protect against cross contamination by control of bacteria
- ♥ Proven by extensive long term research and over 50 years' experience: Effective, durable, versatile and safe
- ♥ Has been tested for microbiological performance
- ♥ Measured bacteria reduction rate in ISO tests greater than 99.9% against control standard
